Meeting started: 10:33

Introduction to the meeting

The Chairman welcomed the Committee Members and observers – specifically Duncan McPherson who has joined committee as the Clinical Director for Medical Devices at MHRA. The Chairman also welcomed Geeth Silva who is an Academic Doctor from the University of Leicester.

The Chairman also welcomed the members of the public and company representatives present at the meeting.

Code of conduct for members of the public and company representatives attending the meeting

The Chairman outlined the code of conduct for the members of the public and company representatives attending the meeting.

1. Any Other Business

The Chairman informed the Committee that this meeting will be Chris Carroll's last meeting and thanked him for his contribution as a member of IPAC.

2. Minutes of previous meeting

Members accepted these as a correct record.

3. Matters arising

None

4. Agenda changes

The chairman informed the Committee that the meeting will run in the order of IP1762, IP1062/2, IP1789, IP1764, IP1783, IP1800, IP1437 and IP742

5. NICE's Advisory Body guide to declaring a conflict of interest

The Chairman drew the Committee's attention to NICE's advisory body quick guide for declaring conflicts of interest.

6. Newly Notified Procedures

IP1762 High tibial osteotomy with adjustable magnetic nail insertion for symptomatic medial knee osteoarthritis

The discussion on IP1762 High tibial osteotomy with adjustable magnetic nail insertion for symptomatic medial knee osteoarthritis started at 10:40.

No conflicts of interest were declared for this procedure

The Committee was reminded that equalities issues was discussed at the brief stage.

Introduced by Jurjees Hasan and Colin Howie

The Chairman declared a Part Two and members of the public left the meeting at 11:03.

The Committee made its provisional recommendations on the safety and efficacy of the procedure.

The discussion on IP1762 High tibial osteotomy with adjustable magnetic nail insertion for symptomatic medial knee osteoarthritis ended at 11:16.

The members of the public as well as company representatives returned at 11:17.

IP1062/2 Chemosaturation with percutaneous hepatic artery perfusion and hepatic vein isolation for primary or metastatic liver cancer

The discussion on IP1062/2 Chemosaturation with percutaneous hepatic artery perfusion and hepatic vein isolation for primary or metastatic liver cancer started at 11:18.

Company representatives from Delcath Inc NY and the University Hospital of Southampton were present for this topic.

Jon Bell declared a direct financial conflict as he had performed a case of hepatic chemostauration in private practice and is likely to perform more procedures in the future. Furthermore, he works with the Principal Investigator for the ICC RCT and the hospital in which he works plans to recruit for this study. The Chair decided that Jon Bell can stay for Part 1 of the discussion to provide the committee with his expertise on the procedure but will need to leave during the decision making in part 2.

The Committee was reminded that equalities issues was discussed at the brief stage.

Introduced by Karen Nugent, Dhiraj Tripathi and Jon Bell

The Chairman declared a Part Two and members of the public as well as company representatives and Jon Bell left the meeting at 12:19.

The Committee made its provisional recommendations on the safety and efficacy of the procedure.

The discussion on IP1062/2 Chemosaturation with percutaneous hepatic artery perfusion and hepatic vein isolation for primary or metastatic liver cancer ended at 12:56

7. Briefs of procedures for future assessment

IP1789 Laser Lithotripsy for the treatment of common bile duct calculi

The discussion on IP1789 Laser Lithotripsy for the treatment of common bile duct calculi started at 13:40

The Chair reminded the committee that the equalities and diversity section is in the brief and should be reviewed and commented on as necessary by all the Committee.

Introduced by Tom Clutton-Brock

The Committee advised on the content of the brief for evaluation of this procedure.

The discussion on IP1789 Laser Lithotripsy for the treatment of common bile duct calculi ended at 13:48
